

POULAMI MONDAL

Full-Stack Web Developer • AI-Driven Application Builder • UI/UX Enthusiast

+91-9874842672 | poulami780@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Kolkata, India

PROFESSIONAL SUMMARY

Results-driven Web Developer and B.Tech Information Technology student (2023-2027) with hands-on experience building AI-integrated, responsive web applications using HTML, CSS, JavaScript, React.js, and Node.js. Proven ability to design intuitive user interfaces, build and consume REST APIs, and translate complex logic into scalable digital solutions. Seeking a frontend or full-stack development internship to deliver high-performance, user-focused products.

EDUCATION

Bachelor of Technology (B.Tech) — Information Technology

Techno Main Salt Lake, Kolkata

Expected June 2027

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS
- Backend: Node.js, Express.js, REST API Development, JSON
- Databases: MongoDB, MySQL
- Tools & Platforms: Git, GitHub, VS Code, Netlify
- Core Competencies: AI-Driven Interface Design, Problem Solving, Team Collaboration, Rapid Prototyping

EXPERIENCE

AI-Based Tech Tools & Web Application Developer Intern

Sep 2025 - Dec 2025

- Developed and integrated AI-powered tools into web applications, enhancing functionality and elevating overall user experience
- Designed and implemented responsive, cross-browser web interfaces using HTML, CSS, and JavaScript
- Built and consumed REST APIs to enable dynamic, real-time data handling across applications
- Optimized application performance by adopting modern development tools, frameworks, and best practices
- Implemented automation and AI-driven features that streamlined workflows and reduced manual effort

PROJECTS

AI Attendance System — Web Application

March 2026 – May 2026

[Live Project ->](#)

Engineered an AI-based attendance system to automate and streamline attendance tracking, reducing manual record-keeping

- Owned frontend design, coding, and core system logic to ensure a seamless user experience
- Optimized for usability and efficient data handling across varying user loads

AetherCode — Developer Productivity Tool (Team Project)

[Live Project ->](#)

- Designed a unified platform that minimizes context-switching between VS Code, GitHub, browsers, and AI assistants
- Enhanced developer productivity through seamless workflow integration across multiple tools
- Collaborated within a cross-functional team to conceptualize, design, and build the end-to-end solution

ACHIEVEMENTS & ACTIVITIES

- Smart India Hackathon (SIH) — Internal Hackathon Participant, Calcutta Institute of Engineering & Management (CIEM); contributed to coding, UI design, and solution development while gaining hands-on experience in teamwork and rapid prototyping
- NIRMITI 2024 — Startup & Innovation Summit Participant (October 2024)

CERTIFICATIONS

Multiple certifications in Hackathons, Programs, and Technical Learning — [View Certificates](#)
